Wittmann & Partner Computer Systems participates to the International Fair for Information Technology and Communications, CeBIT

Between 24 February and 1 March, the International Fair for Information Technology and Communications, CeBIT will take place. The fair is organized in the northern Germany, at Hanover. Companies from the entire world present their products at the event. Among the nine Romanian companies exposing at the fair, Wittmann & Partner was present with SEA.

About SEA

Search Engine Agents is a multi-agent system that helps you working with databases from inside or outside of the company, a solution that improves the classical method of searching, recovering and processing the information you need.

By efficacious and simultaneous utilization of the best technologies of indexing and recovering, SEA offers new functions of Artificial Intelligence. SEA helps you easily find the information and it stores the results on the workstation, organizing them in a clear manner, automatically eliminating the duplicates.

About Wittmann & Partner

Wittmann & Partner is a company located in Sibiu, Transylvania, in the center of Romania, specialized in software development, implementation and maintenance. Our focus is on developing and implementing Internet, Intranets and client-server applications for Windows and Linux/Unix platforms. Companies from Germany, UK, Italy, France and Romania have chosen us as their trusted partner for software development.
