PRESS RELEASE

The management and control of Production and Logistics:
in the spotlight at the **MCPL 2007** conference, in **Sibiu**

The fourth conference of the International Federation for Automatic Control IFAC will take place in Sibiu between September 27 and September 30.

The software company **Wittmann&Partner Sibiu** is involved as local sponsor, as it is active in research projects destined to industrial production, in fields such as group decision support systems, experience database, RFID technologies.

The official opening of the event will take place on Thursday, September 28, in Aula Magna 'Avram Iancu' of the Faculty of Letters and Arts. The conference chairman is Prof. eng. Octavian Bologa, PhD.

Subjects related to the management and control of production and logistics will be tackled in workshops and presentations of scientific papers. The conference in Sibiu is addressed to an international specialist audience in search of the best business solutions and the latest scientific discoveries.
